

# Teacher Quick Start Guide

## 1 Live Training Calendar

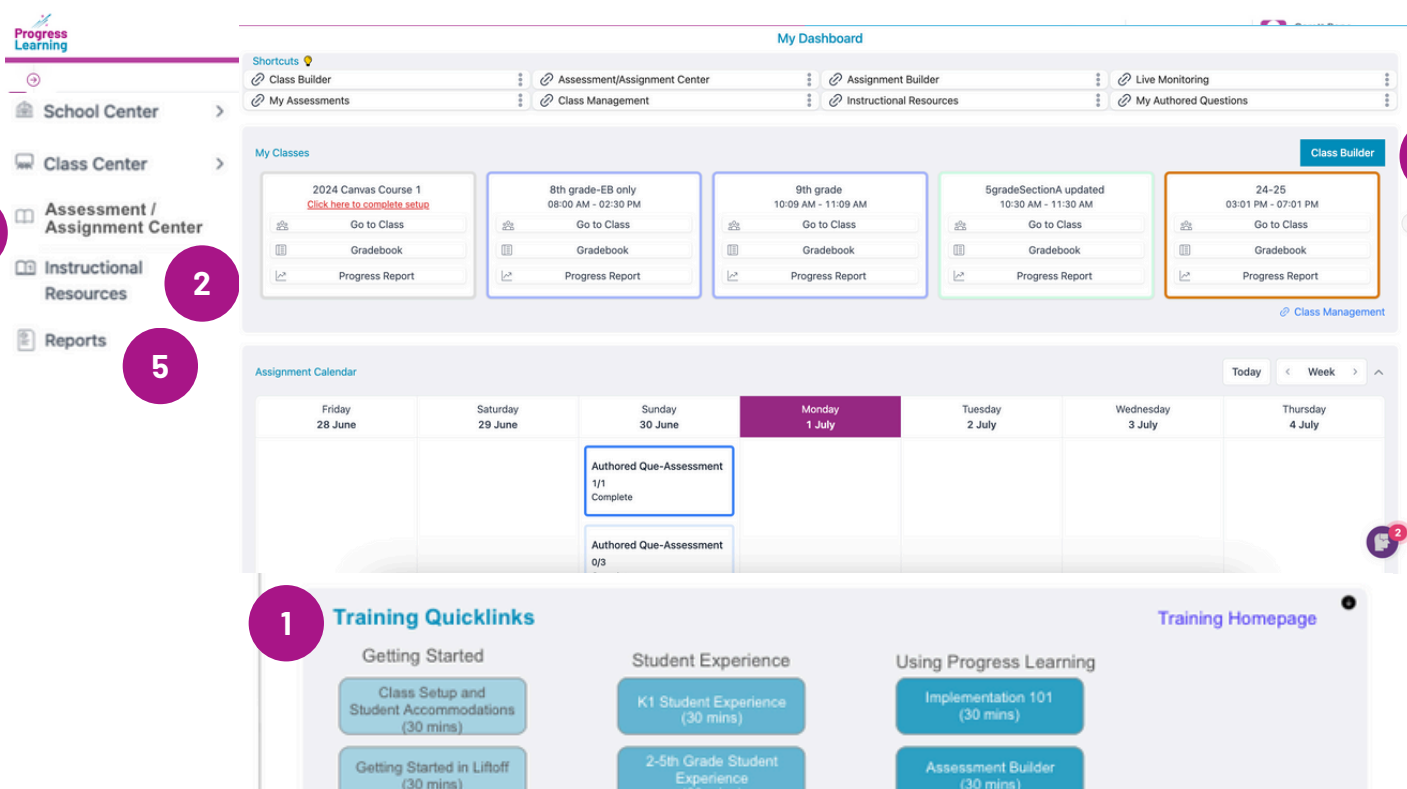

Within the HELP menu, a series of on-demand training modules are available and categorized based on your current level of knowledge in Progress Learning. This option also includes our Live Training Calendar that includes Special live webinar topics offered each month. Be sure to watch your email and check the calendar each month for new sessions!

## 2 Instructional Resources

Get started right away by finding activities to incorporate into your lesson plans. Go to your subject area classroom resources page using the link at the top—display a bell ringer question, find printable materials, and videos!

## 3 Set Up Classes

Use the "Class Builder" link to set up your classes (you can even share your class with other teachers), associate subject areas, and add students. If you prefer, 6th–12th grade students can join your class from their homepage instead, by selecting Join a Class from their Profile menu.

The screenshot shows the Progress Learning dashboard with the following elements:

- 1 Training Quicklinks:** Located at the bottom of the dashboard, featuring three columns of training modules: "Getting Started" (Class Setup and Student Accommodations, Getting Started in Liftoff), "Student Experience" (K1 Student Experience, 2-5th Grade Student Experience), and "Using Progress Learning" (Implementation 101, Assessment Builder).
- 2 Instructional Resources:** Located in the top right of the dashboard, under the "Shortcuts" section, with links for "Class Builder", "Assessment/Assignment Center", "Class Management", "Instructional Resources", "Live Monitoring", and "My Authored Questions".
- 3 Set Up Classes:** Located in the top right of the dashboard, under the "My Classes" section, with a "Class Builder" button.
- 4 Assessment / Assignment Center:** Located in the left sidebar, with a "Go to Class" button.
- 5 View Data with Reports:** Located in the left sidebar, with a "Reports" button.

## 4 Assessment and Assignment Center

Use our Assessment and Assignment Builder to create formative and summative assessments as well as a variety of activities, including practice questions and instructional videos. In our assessments, you can include a variety of technology-enhanced items or build your own with our teacher-authored questions feature.

## 5 View Data with Reports

Refer to a library of reports. Here you can view reports, grades, and assign remediation for intervention.

# Instructional Resources

## Bell Ringers

Use the Bell Ringer to display a warm-up question. Bell Ringer questions can also be displayed in Spanish and printed.

## Videos

Select a standard to review from our library of videos. Each video has questions aligned with the standard and associated with the video being viewed.

## Standards

You can view standards and item counts for the subject.

4th Grade Mathematics (TEKS)

**Online Resources**

- Bell Ringer**  
Display a single question of your choice as a warm-up activity or ticket out of the door.
- Videos**  
Browse all available instructional videos by title and by domain.

**Printable Resources**

- Class Activities**  
Browse an extensive collection of ready-to-print worksheets and answer keys.
- Supersheets**  
Print pre-built assessments that are aligned to your state standards with item-answer rationals.

**Standards**

**Item Counts for This Subject**

- Questions: 1698
- Supersheets: 14
- Worksheets: 75
- Instructional Videos: 38

**Numerical Representations and Relationships**

- 4.2(A) Place Value
- 4.2(B) Represent Whole Numbers and Decimals
- 4.2(C) Compare and Order Whole Numbers
- 4.2(D) Rounding Whole Numbers
- 4.2(E) Decimal Models
- 4.2(F) Compare and Order Decimals
- 4.2(G) Relate Decimals and Fractions
- 4.2(H), 4.3(G) Fractions and Decimals on a Number Line
- 4.3(A)(B) Fraction Sums
- 4.3(C) Equivalent Fractions
- 4.3(D) Comparing Fractions

**Computations and Algebraic Relationships**

- 4.3(E)(F) Add and Subtract Fractions
- 4.4(A) Add and Subtract Whole Numbers and Decimals
- 4.4(B) Multiply by 10 and 100
- 4.4(C) Represent Products
- 4.4(D) Multiplication Strategies
- 4.4(E) Represent Quotients
- 4.4(F) Division Strategies
- 4.4(G) Estimating Solutions
- 4.4(H) Multiplication and Division Fluency
- 4.5(A) Represent Multi-Step Problems
- 4.5(B) Numerical Patterns

## Class Activities

Click any standard in this area for printer-friendly review materials, including ready-made worksheets with answer keys.

## Student Activities

These downloadable resources can be tailored to any state or grade level, which includes supporting with implementation resources, student goal setting, and classroom resources.

## SuperSheets

Supersheets are pre-built, standard-aligned printable worksheets that are available for students in grades 2-8. Click [here](#) to see if your state has SuperSheets.

## Create Your Implementation Plan

Progress Learning can be used in numerous ways to fit the needs of your students. Here are some practical ideas:

- Create a multi-activity assignment to reinforce the standards you've recently covered in class.
- Set up Progress Learning stations with small groups watching instructional videos and completing practice questions together.
- Design informal assessments and use them in projector mode so that you can discuss the questions with your students.
- Create a mini-assessment for completion at the beginning of the week and set aside class time throughout the week for students to complete self-remediation from their results screen for standards where they scored <80%.
- Assign activities on Progress Learning as regular homework or extra credit opportunities.
- Challenge students to turn their pink dots (standards with average scores under 65%) to yellow and green dots using their personalized learning path in Focus Areas.
- Run a [Green Dot Challenge](#) centered around students' completed work or time spent on Progress Learning (example: for each activity completed with an 80% or higher, students earn a ticket).

### We are here to help!

Use the Help button at the very top of any page to ask questions or share feedback and receive announcements by clicking this icon on your dashboard.
