

What's New 2025

Introduction

Inside this guide, you'll find an overview of the latest tools, features, and enhancements, including updates to state academic standards and improvements designed to simplify progress monitoring, personalize intervention, and make your instructional time more impactful. Whether you're an administrator, instructional coach, or classroom educator, this guide was created with you in mind.

<u>2025-2026 Academic Updates</u>	12-62

Platform Enhancements

Login and Forgot Password Redesign

What is it?

We've refreshed our login and password recovery pages to better reflect our current branding. These updates provide a more modern and user-friendly experience for all users.

Where is it located?

To view the new designs, visit the Progress Learning login screen or click "Forgot Password" from the login page.

New Integration with Schoology

What is it?

Progress Learning now integrates with Schoology! This expanded integration includes four infrastructure phases designed to strengthen syncing between platforms—making assignment management, communication, and usage reporting even more seamless.

Interested in getting started?

Reach out to our team at support@progresslearning.com and we'll help you get set up.

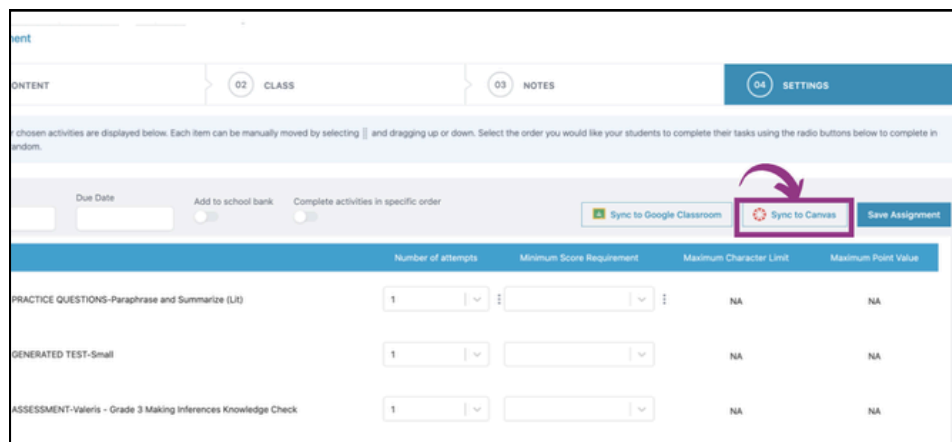

Google Classroom & Canvas Sync Enhancements

What is it?

Sync buttons have been replaced with toggle switches for a cleaner, more intuitive interface. You'll now receive immediate visual feedback when syncing assignments, making it easier to confirm your updates.

Where is it located?

To access this update, navigate to the Assignment Builder and select "Add/Sync to LMS" when creating or editing an assignment.

The screenshot shows the 'Assignment Builder' interface. At the top, there are tabs for 'CONTENT', '02 CLASS', '03 NOTES', and '04 SETTINGS'. Below the tabs, there is a section for 'Chosen activities' with a note: 'Chosen activities are displayed below. Each item can be manually moved by selecting [drag handle] and dragging up or down. Select the order you would like your students to complete their tasks using the radio buttons below to complete in random.' Below this, there are three toggle switches: 'Due Date', 'Add to school bank', and 'Complete activities in specific order'. To the right of these toggles are two buttons: 'Sync to Google Classroom' and 'Sync to Canvas'. The 'Sync to Canvas' button is highlighted with a red box and a red arrow. Below the buttons is a table with columns: 'Number of attempts', 'Minimum Score Requirement', 'Maximum Character Limit', and 'Maximum Point Value'. The table contains three rows of activities: 'PRACTICE QUESTIONS-Paraphrase and Summarize (LIT)', 'GENERATED TEST-Small', and 'ASSESSMENT-Valeris - Grade 3 Making Inferences Knowledge Check'.

	Number of attempts	Minimum Score Requirement	Maximum Character Limit	Maximum Point Value
PRACTICE QUESTIONS-Paraphrase and Summarize (LIT)	1		NA	NA
GENERATED TEST-Small	1		NA	NA
ASSESSMENT-Valeris - Grade 3 Making Inferences Knowledge Check	1		NA	NA

Assignment Enhancements

Assignment Builder UI Enhancements

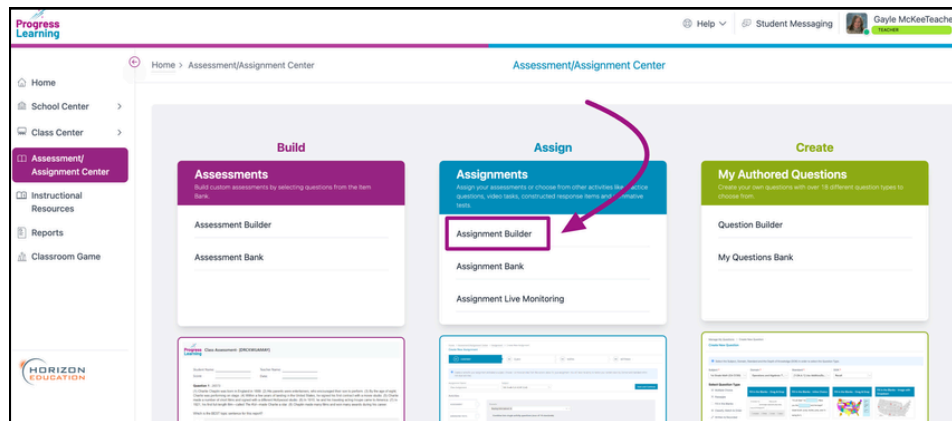

What is it?

The Assignment Builder has been streamlined with several user-friendly updates:

- New links to the Assessment Builder for easier navigation.
- Admin users can assign content by grade level using newly created, auto-generated classes.
- The Notes and Settings tabs have been reorganized, making the Notes field optional.

Where is it located?

To access these changes, use the Assignment Builder from your Teacher Dashboard.

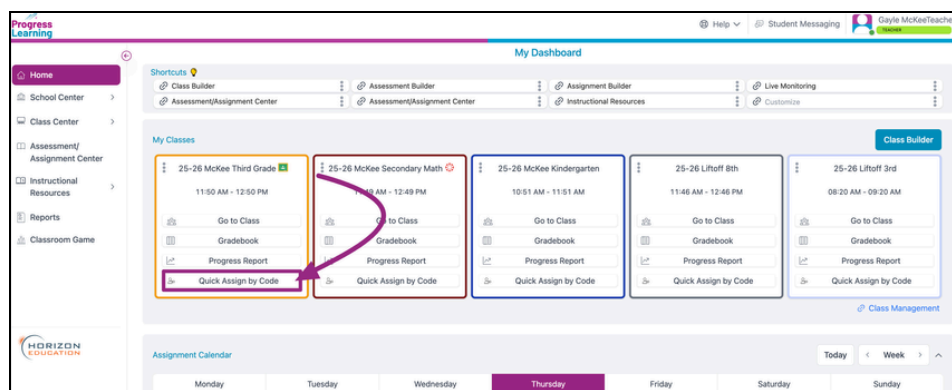

Quick Assign By Code

What is it?

Teachers and school administrators can now use any assessment code to quickly create and assign an activity directly from their homepage. This tool supports efficient re-use of existing assessments.

Where is it located?

To use this tool, go to your homepage and select the “Quick Assign by Code” button.

Assessment Enhancements

Assessment Builder Enhancements

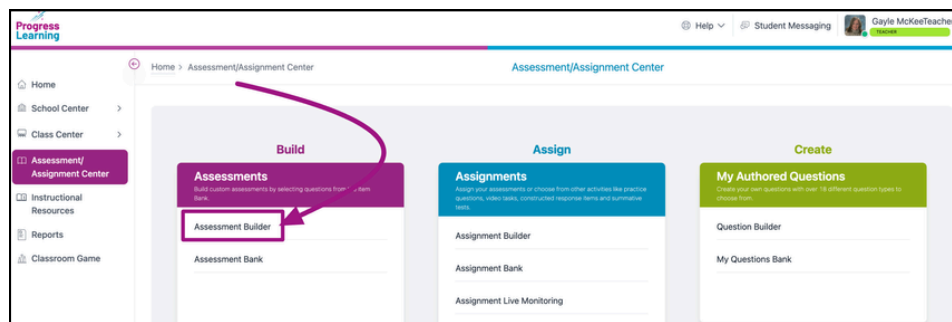

What is it?

We've added several updates to the Assessment Builder to improve efficiency, clarity, and customization:

- Domain and standard hyperlinks are now clearer and easier to follow.
- A "Discard and Exit" option allows users to quickly leave the assessment builder.
- A new "Build by Standard" tool enables users to auto-generate assessments based on selected standards and desired question count.

Where is it located?

To explore these updates, navigate to the Assessment Builder from your Teacher Dashboard when creating or editing an assessment.

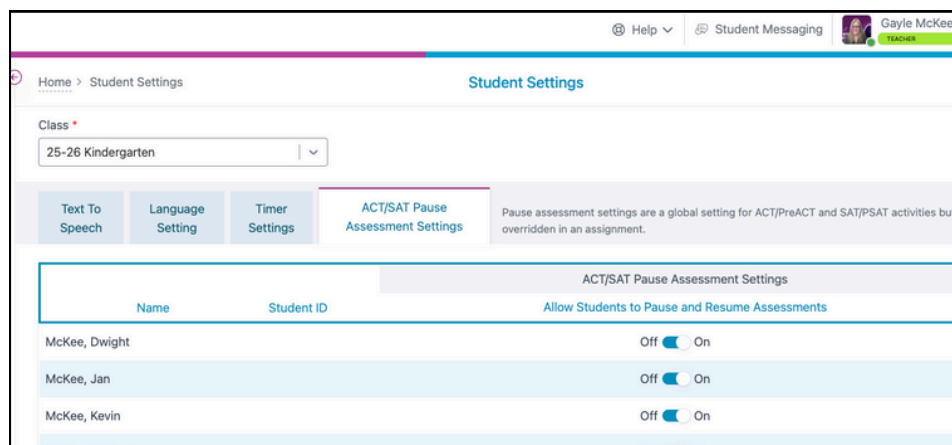

Pause Assessment Settings

What is it?

This setting allows individual ACT® and SAT® Assessments to be paused mid-session for students with accommodation needs during timed sessions.

Where is it located?

This setting can be configured per student under the accommodations section when assigning an ACT® and SAT® Assessment.

Bell Ringer Enhancements

Subject View Toggle & Refresh List

What is it?

Teachers can now toggle between subjects within the Bell Ringer view and refresh question lists for more variety. A centralized link has also been added to the Instructional Resources menu.

Where is it located?

To use these new features, navigate to the Instructional Resources section and click on Bell Ringers.

The screenshot shows the Progress Learning interface. The left sidebar contains a purple box around the 'Instructional Resources' section, with a red arrow pointing to the 'Bell Ringer' link. The main content area is titled 'Bell Ringer' and includes a 'Subject' dropdown menu. Below the dropdown is a table of Bell Ringer questions.

Name ↓	Subject ↓	Domain ↓	Standard ↓	Question Type ↓	Ed
April 18	3rd Grade Mathematics (TEKS)	Data Analysis and Personal Financial Literacy	[3.4(C)] Coins and Bills	Standard	
TADA	2nd Grade Reading (TEKS)	Phonetic and Spelling Knowledge	[2.2.B()C(iv)a] Digraphs	Cloze With Drag & Drop	
4/8/25 Perimeter	3rd Grade Mathematics (TEKS)	Geometry and Measurement	[3.7(B)] Perimeter	Standard	

Accessibility Enhancements

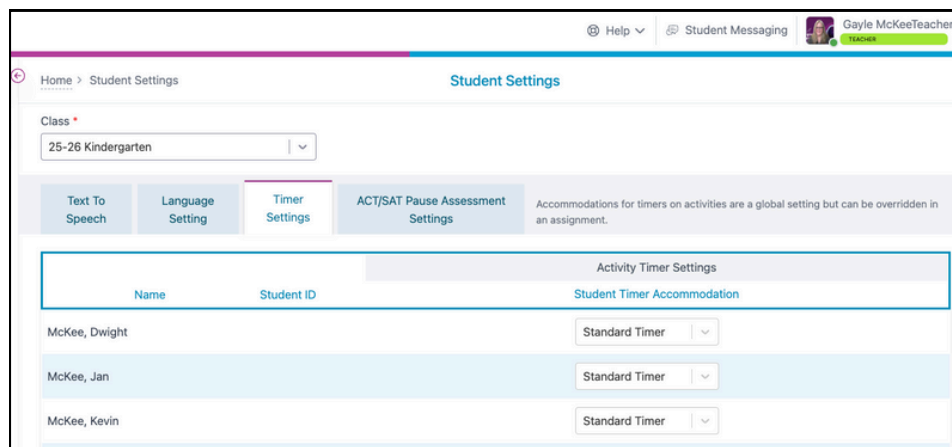

Timer Accommodation Setting

What is it?

This setting supports extended time accommodations for timed Premium Assessments. This setting can be configured for individual students who need additional time (e.g., IEP, 504 plans).

Where is it located?

To enable this setting, go to a student's profile and select the timer accommodation option for their Premium Assessments.

The screenshot shows the 'Student Settings' page for a user named Gayle McKeeTeacher. The 'Class' is set to '25-26 Kindergarten'. The 'Timer Settings' tab is selected, showing a table of 'Activity Timer Settings' for three students: McKee, Dwight; McKee, Jan; and McKee, Kevin. Each student has a 'Standard Timer' selected from a dropdown menu.

Name	Student ID	Student Timer Accommodation
McKee, Dwight		Standard Timer
McKee, Jan		Standard Timer
McKee, Kevin		Standard Timer

WCAG V2.2 Compliance Work

What is it?

We've made platform-wide accessibility improvements aligned with WCAG 2.2. These updates enhance screen reader compatibility, label clarity, color contrast, and keyboard navigation for a more inclusive user experience.

Where is it located?

These enhancements are built into the platform and are especially visible in K1, Elementary, and MS/HS products. To view the VPAT for each of our products, click [here](#).

Student Experience Enhancements

Removal of Begin Screen in K1

What is it?

To simplify navigation for our youngest learners, the introductory “Begin” screen has been removed from K1 activities.

Where is it located?

This change applies automatically within all K1 activities.

Retirement of Alien Avatar

What is it?

To reduce distractions and streamline the platform, the Alien Avatar has been removed from K1, Elementary, and Liftoff products.

Where is it located?

This update is reflected throughout the K1, Elementary, and Liftoff student dashboards.

Idle Timer Auto-Pause Feature

What is it?

Student sessions automatically pause after 10 minutes of inactivity to improve progress tracking and reduce inaccurate data.

Where is it located?

This feature is enabled platform-wide and applies to all student-facing activities.

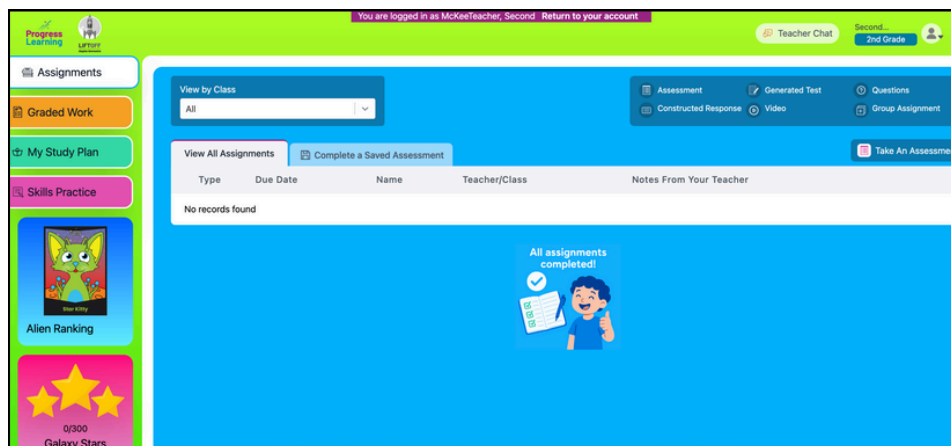

Layout Update for Elementary and Liftoff Products

What is it?

We've shifted reward information to the left side of the screen to give more space to instructional content. Liftoff for Middle School has been redesigned to match our MS/HS interface for a more mature user experience.

Where is it located?

These layout updates are visible in the Elementary and Liftoff student dashboards.

Alien Ranking Cards Now in Spanish

What is it?

Alien Ranking Cards (standard and prestige) are now available in Spanish, supporting dual-language learners.

Where is it located?

Students using Spanish language settings will now see Alien Ranking Cards in Spanish on their dashboards.

Reporting & Data Features

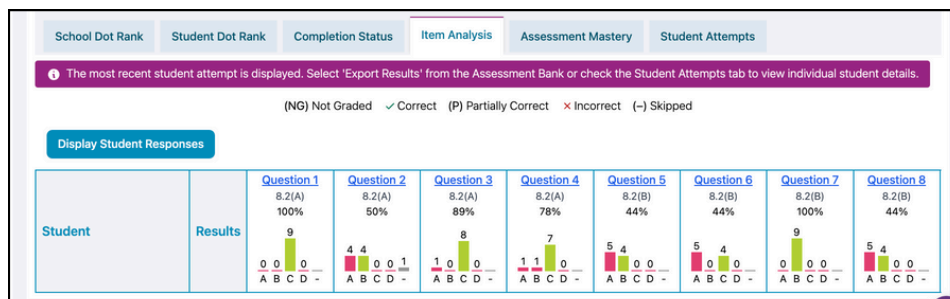

District Summary View in Item Analysis

What is it?

A new histogram view allows district administrators to view performance across all schools without applying filters. This makes district-level data analysis faster and easier.

Where is it located?

To use this feature, go to the Results Reports section and click into the Item Analysis tab.

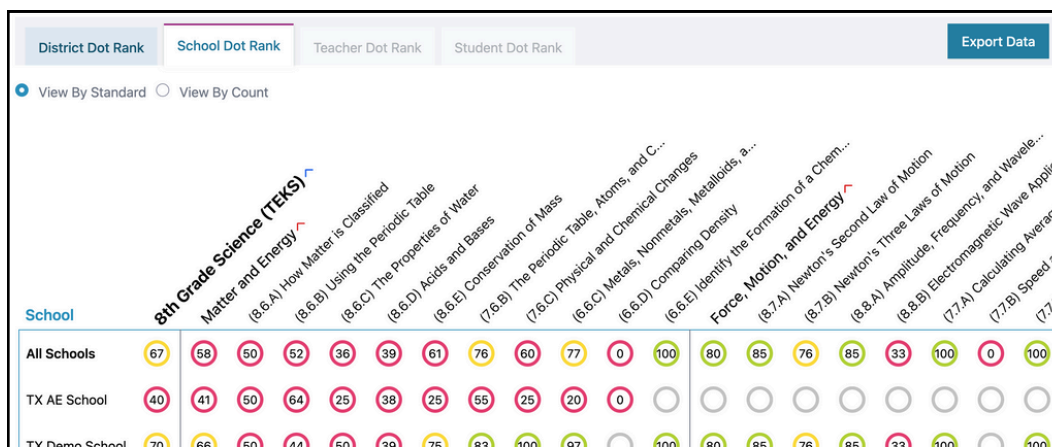

Progress Report Export on School Dot Rank Tab

What is it?

We've added export functionality to the School Dot Rank tab, making it easier to share and analyze performance data at the school level.

Where is it located?

To export this data, navigate to the School Dot Rank tab within Results Reports.

Results Report Filter Enhancements

What is it?

Filters now require manual application, which improves system performance and ensures more accurate reporting.

Where is it located?

These enhancements are available within the Results Reports view when you apply filters to your data. After selecting your desired filters, be sure to click the **Run Report** button to generate the updated results.

The screenshot shows the 'Results Report' interface. At the top, there are two tabs: 'View by Assessment' (selected) and 'View by Assignment'. Below the tabs is a blue informational box stating: 'Selecting to view by assessment will allow you to see all results regardless of assignment. Because a single assessment can be assigned at different times to different students under multiple assignments, this view will provide you with the overall picture for all students who completed the single assessment with the ability to drill down to additional levels. Remediation is not available from this view.' Below this box are four filter dropdowns: 'School Year' (25-26), 'Subject' (3rd Grade ...), 'Assessment Type' (Shared Assess...), and 'Assessments' (25-26 MOY Math (3) - HTEXXQPKCA). At the bottom right are 'Reset' and 'Run Report' buttons.

Grade-Level Class Filters for Admins

What is it?

District and school administrators can now filter reports by system-generated grade-level classes. This view organizes students by grade, regardless of teacher-created classes.

Where is it located?

To access this feature, go to any reporting dashboard and use the Class Filter dropdown to select a grade-level class.

The screenshot shows the 'Liftoff Class Galaxy Summary Report' interface. The top navigation bar includes 'Progress Learning', 'Help', 'Student Messaging', and a user profile for 'Becca BakerAdmin'. The breadcrumb trail is 'Home > Reports > Liftoff Class Galaxy Summary Report'. The main content area has a 'View By' dropdown menu (highlighted with a red box) set to 'Class'. To its right are 'Class' and 'Subject' dropdowns, both set to 'Select Class' and 'Select Subject' respectively. At the bottom right are 'Reset', 'Run Report', and 'Export' buttons.

2025–2026 Academic Updates
