Progress Learning

Liftoff: Adaptive Intervention for TEKS-Aligned Math, Reading, and Science*

For Grades 2-8

LIFTOFF
Adaptive Intervention

Addressing Learning Gaps for Math, Reading, and Science*

TEXAS Progress

Liftoff is a **research-based intervention program** aligned to TEKS and NWEA MAP, helping Tier 2 & 3 students close learning gaps in **math, reading, and soon, science*** through:

✓ Personalized learning

✓ Vertically aligned content

✓ Engaging, research-based instruction

✓ Targeted preparation for Texas state assessments

Math
Engaging, TEKS-aligned problems with varying complexities in operations and number sizes.

Reading
Grade-level passages that develop comprehension and critical thinking.

Science*
Targeted, inquiry-based questions that reinforce key TEKS-aligned concepts.

NWEA Map Integration

map®GROWTH™

Liftoff integrates with **NWEA MAP**, allowing you to **import RIT scores** from Beginning- or Middle-of-Year assessments. It identifies each student's proficiency in **math, reading, and science*** and creates a **personalized learning path**. Students advance by closing gaps and building the foundational skills needed for grade-level success. 🚀

TEKS-aligned Science content will be available Summer 2025

All the Tools You Need to Address Learning Gaps

Recover Learning Loss

Liftoff helps students close foundational gaps and regain lost skills in math, reading, and science* through:

- **Vertically aligned, grade-level standards** to target learning
- **Skill-building from the ground up** for long-term growth
- **Research-based intervention** proven to drive success
- **Preparation for state assessments** and future learning

Boost Student Engagement

Liftoff turns learning into an exciting, supportive experience and keeps students motivated and engaged with:

- **Fun avatars, rockets, and rewards** to make learning interactive
- **Games as incentives** for correct answers
- **Immediate support** with explanation videos for incorrect responses
- **Confidence-building reinforcement** of key concepts

Differentiated Learning for All Levels

Liftoff meets students where they are and adapts to each student's needs with:

- **Diagnostic assessments & NWEA MAP data** to pinpoint learning levels
- **Customized learning paths** in math, reading, and science*
- **Targeted, TEKS-aligned support** to close skill gaps

Bilingual Learning Support

Liftoff makes learning accessible for all students and provides **English & Spanish options**, ideal for:

- **ESL, dual language, and bilingual instruction**
- **Three language modes** for a customized learning experience
- **Practice in either English or Spanish** for math, reading, and science*
