

Let's review the new accessibility tools students can use on questions within their practice in the Study Plan, Assignments, Assessments, and Diagnostics.

 **Accessibility** Change the colors, font size, or zoom in or out on the question

 **Notepad** Type notes to help your understanding of the question

 **Review** Review all questions in the practice

***Only available in assessments, diagnostics, and tests.*

 **Sticky Note** Add or hide a sticky note with your notes or reminders for the question

 **Drawing Mode** Use the drawing tools to help your understanding of the question

 **Flag Item** 

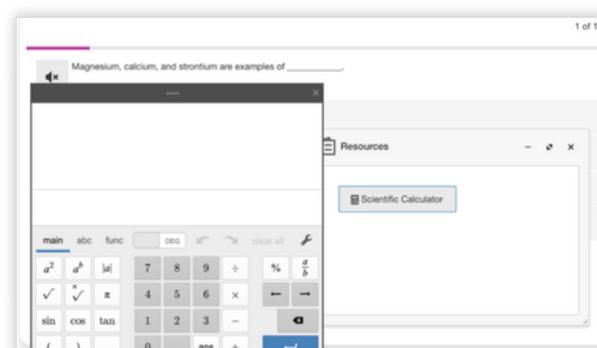

Mark a question that you want to review before submitting the practice. This tool is only for assessments or diagnostic assessments

***Only available in assessments, diagnostics, and tests.*

 **Response Masking** Eliminate answer choices that are incorrect

 **Calculator** Use the calculator tool on some questions to solve the problem

***Only available if enabled by your teacher.*
