

# **Progress Learning Reports**

Progress Learning provides educators with the tools they need to monitor student learning and guide instruction. Our reporting suite delivers real-time, actionable data across assignments, assessments, and intervention, helping educators identify learning gaps, track growth, and make informed decisions that support student success.

## **Progress Monitoring Reports**

## Progress Report (Student, Teacher, and School Dot Rank)

This report tracks current scores by subject and standard using our Dot Rank system. It provides a clear view of progress at the student, classroom, and school levels, helping educators identify areas of strength and need.

#### **Gradebook Report**

The Gradebook Report offers a complete view of student performance on both assigned work and independent practice. Teachers can use this report to identify learning trends and determine where additional support may be needed.

#### **Quick Click Remediation**

Quick Click Remediation allows teachers to immediately assign targeted practice based on student performance. This tool automatically highlights the weakest standards and enables teachers to assign one to three focused practice items per student with just a few clicks.

#### Item Analysis Report

This report provides a detailed breakdown of student responses to each question on an assessment. It helps teachers identify misconceptions, evaluate class performance, and plan targeted reteaching.

#### **Class Results Report**

The Class Results Report displays scores and completion data for all class activities. It allows teachers to monitor class-wide performance and ensure that all students are progressing as expected.

#### Galaxy Star Report (Grades K-5)

This report tracks student motivation through Galaxy Stars and Alien Rankings. Teachers can use it to celebrate student progress, support goal-setting, and recognize achievement with printable certificates.

#### **Session Activity Report**

The Session Activity Report shows how many questions students answered, how much time they spent on tasks, and how they performed. It supports classroom management and helps ensure that students are engaged and productive.

#### **Assessment Results Report**

This report allows educators to export student performance data for one or more assessments into a spreadsheet. It includes performance by standard and provides a detailed overview for analysis and collaboration.

### **Diagnostic Reports**

#### **Student Strengths & Weaknesses Report**

This report breaks down diagnostic results by standard and categorizes each one by level of mastery. Teachers can filter out mastered standards and focus on those labeled "Some Study Required" or "Critical Need."

#### Assessment Comparison Report

This report displays pre- and post-diagnostic results side by side for each student. It uses visual charts to show growth across domains and standards, allowing educators to measure progress over time.

#### **Individual Diagnostic Report**

The Individual Diagnostic Report in Liftoff shows each student's performance by domain. It includes scores, areas of strength, and current Galaxy Levels, providing a clear picture of where students are starting.

#### **Diagnostic Report**

This report summarizes diagnostic completion, accuracy, and starting Galaxy Level. It provides a quick check of student readiness before intervention begins.

#### **Growth Report**

The Growth Report tracks student movement from their starting to current grade level in both reading and math. It offers insight into weekly progress by domain and helps educators evaluate intervention effectiveness.

#### **Class Galaxy Summary Report**

This report groups students by their current instructional level based on Liftoff data. It supports small-group planning and differentiated instruction by keeping student groups updated in real time.

#### Galaxy Star Report (Liftoff)

This report tracks how many Galaxy Stars each student has earned and displays their current Alien Rankings. It supports student motivation and provides another lens for measuring foundational skill development.
