

**Teacher Directions:** Help students learn how to navigate Progress Learning. In small groups or independently, have students scan the QR code to watch the video for each section of the student dashboard. Students can then write 1-2 sentences next to each section on what they learned about that part of their student dashboard. Once all areas are filled in, students will have successfully completed their scavenger hunt!

**Page 2 is the answer key for the teacher.**

If you would like to do this as a whole group, click [here](#) for a video to watch as a class. You can do this activity over multiple days if needed.

### 3 Diagnostics

Scan to watch

*My teacher will tell me when and what I need to do with my diagnostics. I will not have any practice until my tests are completed with scores.*

### 4 My Galaxies

Scan to watch

*This is where I will work on my practice to help me be successful this school year. I need 80% or higher to earn a Galaxy Star. I only get a game when I answer the question correctly.*
