

# Student Scavenger Hunt Activity

Kindergarten and 1st Grade

**Teacher Directions:** Help students learn how to navigate Progress Learning. As a whole group, in small groups, or modeling for your students, scan the QR code or click to watch the video for each section of the student dashboard. Students can then color in the box to mark it complete. Once all boxes are colored, students will have successfully completed their scavenger hunt!

If you would like to do this as a whole group, click [here](#) for a video to watch as a class. You can do this activity over multiple days if needed.
