

James Patterson Elementary
Fort Bend ISD, Texas
5th grade

“

Students are actively engaged in our bulletin boards! We have TWO visual boards that keep students on the edge of their seats! First, students get to see their Alien Ranking and compare it to our #Goal poster. The #Goal poster is a reminder of where students should be at this point of the year. Each month, the lime green frame will move one spot to the right. Next, we are also including goal setting as one of our student ownership tools. Part of that is identifying their needs and recording their stars when they earn them. Additionally, students earn prizes based on their Alien Ranking (Dojo points and tangible items). When kids are excited to learn, learning is fun!"

Savoy Elementary School
Savoy ISD, Texas
4th grade

“

Here is the bulletin board that my 4th grade students put together. I had a small committee that worked together, came up with the idea, and then presented their idea to me. We then worked together to bring the bulletin board to reality. Each student in my class has a UFO labeled with their name. Each time they advance in Progress Learning, they get to move their UFO to the next rank. As other students in the building walk by, we get to hear them talk about what 'level' they are currently on. My students feel super special when they get to take the walk to the hallway and move their UFO."

Neshoba Central Elementary
Neshoba County School District, Mississippi
5th grade

“

I made each level into its own planet. Students get to move their flying saucer once they have leveled up to each planet. Students also earn points for leveling up for prizes.”

-Kreissa Reed

Las Yescas Elementary
Los Fresnos CISD, Texas
2nd grade

I love having my Alien Ranking Card bulletin board in my classroom! My students are able to move their alien spaceship to their ranking as soon as they level up online! It keeps my students accountable of their progress and seeing their classmates move up motivates them to do the same!"
