Re: Reference Letter for Progress Learning

To whom it may concern:

Please accept this reference for Progress Learning, who provided services to Wylie ISD. Progress Learning has been instrumental in helping our district connect with students by aiding them in reaching benchmarks and achieving mastery. They provided us with a comprehensive, data-driven resource that supports teachers with standards-aligned tools and resources. These resources are effective across all grade levels, from Kindergarten through 8th grade, and have significantly contributed to the success of our students.

Progress Learning's product enables our teachers to monitor individual student progress on a deeper level through remediation and adaptive intervention. Their easy-to-use dot rank system breaks down each domain, allowing teachers to see where students stand in relation to state standards. With access to over 300,000 items, our educators can efficiently streamline supplemental learning resources, replicate and share assessments, and author their own content with ease.

The platform's integration with Clever and Google Classroom has further simplified the process, enabling our teachers and administrators to track student progress in real time. We have found their services to be efficient, effective, and aligned with our educational goals.

We understand that Progress Learning has submitted a proposal to Education Service Center Region 8 and the TIPS Cooperative. As a customer of this Vendor, Wylie ISD is satisfied with their performance and would gladly do business with them again. We highly recommend Progress Learning to TIPS public entity and non-profit members.

Thank you,

Stacy Horton, M.Ed.
